Location of Organization:

- Country: Indonesia
- Region: Jakarta
- Street Address: Jl. Ciranjang, No.6, Kebayoran Baru, South Jakarta
- City, Postal Code: Jakarta, 12180

Description of organization (history, mission, focus):
Established in 1995, IIEE is a non-government and not-for-profit organization that had been involved in many activities long before its formal establishment.

The Mission Focus:
Research
To increase public knowledge and people's awareness of the importance of efficient and sustainable energy resource management and utilization.

Capacity building
Building the capacity of communities to enable them participate actively in the management and conservation of energy resources.

Policy advocacy
To enhance the formulation and enforcement of energy policies for sustainable development in Indonesia.

Goals:
Provide information and analysis on the development of the energy sector and economic development of the country that are relevant for meeting people's needs for affordable and environmentally friendly energy resources.

Encourage and facilitate participatory process in the planning, management and utilization of energy efficiently at the national and regional levels.

Advocate public policies and encourage efforts for the development of alternative energy resources and facilitate people's participation in obtaining access to and in the provision and utilization of energies.

Accomplishments:
IIEE has involved in many collaborative researches and capacity building activities, both at national and international level. IIEE has been requested by government institutions, the Parliament, private business entities, and civil societies to give valuable inputs and recommendation on the issues of energy economics and environment.
How many interns can you accommodate? Minimum 2 persons
Note: We recommend a minimum of two interns at each location

Please Answer the Following Questions for EACH Available Job:

1. Job Description: What will the student intern be doing?
   The students will involved in to our main activities: (1) Research (2) Social Business Program and if necessary students will do site visit to social business program activities, such as Pico Hydro/Micro Hydro and Biomass Electrification Gasification.

2. Is there any compensation associated with the internship? NO If so, how much?

3. What helpful talents and/or skills should the student intern possess, if any, including major (business, engineering, etc.)? Since the student will be involved in the institution activities, it would be good if the major are Science, Engineering, Environmental studies/environmental engineering, Economics (policy). If possible at least they have also some experience in public relation/communication, media campaign design and marketing strategy.

4. What would a typical day be like?
   We start our weekdays with a briefing all our activities, about the progress and the work plan. We give the task to students during working with us and they will work as individually or, if required, as a team. The Managers will assist the team if necessary and can ask the designated person-in-charge on the work progress.

5. Any other special requirements? N/A

What is your preference for dates? 5 – 7 weeks
(Fellows are expected to spend 5 to 7 weeks working with an organization.)

What is appropriate attire for internship (office) and within your region? (Office) Decent and appropriate clothes, because if necessary we ask students to attends meetings or seminar/conferences together with researcher, and Since Jakarta, in general, will be hot and humid during the mid of year, then it is preferable to have all-cotton shirt.

Do you regularly have interns working with you? YES

If there is a mandatory language requirement, what language and how fluent must the fellow be? English is fine. Knowing some of daily speaking in Bahasa Indonesia will give students easiness in understanding people and working culture in Jakarta.
LOGISTICS

What is the nearest airport (with airport code)?
Soekarno-Hatta International Airport in Cengkareng, Jakarta
Airport Code: CGK

What are housing options and costs?
- Room rent around Rp. 800,000/weeks
- Apartment rent around Rp. 2,500,000/weeks

Where will students find housing? Usually it close to IIEE office and it takes 5 – 10 min walking

Please provide an estimate of other costs/week that the interns will need to pay for themselves (Example: Food, lodging, local transportation, etc)
$5 to $10 a day.

Indonesian foods in general are spicy due to a lot of spice and chilly used in it. However, some international fast food chain restaurant, such as Mc Donald, Burger King, Kentucky Fried Chicken and Pizza Hut, can be found around Jakarta. For health and sanitation reasons, it is better to have lunch or dinner in the food courts if the student wants to taste Indonesian foods.

Around IIEE, there are several restaurants offer Indonesian, Chinese and Western foods. The price range starts from US$ 2 to $ 5. The food stalls can offer less expensive foods starting from $ 1.5

The students can also cook their meals in their apartment if the kitchen provided as part of the services. Some supermarkets and traditional markets are available near the office. They offer various daily goods with limited Western products.

Transportation (during the day, to and from airport):
In general, from the residential area going to the office can use public transportation, such public buses and mini buses. The bus fare starts from Rp 2,500 to Rp 6,000 one way. For convenience, there are many taxis available in Jakarta. However, some companies, like Blue Bird, Pusaka, Gamya, Putra and Express, provide better service than others. The flag-down tariff start from Rp 6,000 to Rp 7,000 and the meter fare is Rp. 300 to Rp 450 per kilometer. The average taxi cost from the apartment to our office is around Rp. 25,000 or about $ 3 depending on the traffic.

From the airport, the student can use either airport buses or taxis. The airport buses, provided by DAMRI, will take the student from the airport to the designated bus terminal. DAMRI Bus will cost Rp 30,000 from the Airport to the terminal in Jakarta. It is recommended to plan ahead which bus terminal is nearer to the apartment where the students live. From this terminal, student can continue by using taxis or public buses to the final destination. The airport taxi offers a door-to-door service. Besides paying regular meter, the passenger must pay the airport fee and toll-road fee.
What is the weather like between late June and early September?

Weather:
Fahrenheit-Celsius °C = (°F − 32) ÷ 1.8
Celsius-Fahrenheit °F = (°C × 1.8) + 32

Jakarta is almost always hot and sticky. Average maximum temperatures stay above 30°C (86°F) throughout the year. July through to September has the least amount of rain, and that’s when the temperature remains consistently high.

Average daily temperature: 23 – 33 °C
AM humidity: 90 – 93
PM humidity: 61 – 67
Average rainfall: 43 – 97
Duration of sunshine: 7 – 8 hours

What are some possible weekend excursions/activities for young people?
Jakarta has a lot of tourist attractions, such as the Old Port of Sunda Kelapa, the Fatahillah Museum, both in the northern part of Jakarta, or the National Museum in Central Jakarta. In the Eastern Jakarta, there is Taman Mini Indonesia Indah. It is a miniature of all regions, ethnics and cultures in Indonesia: it is like discover Indonesia in 1 day. Some kilometers south of Jakarta there is the city of Bogor, known to its beautiful botanical garden and presidential palace. To the West of Jakarta, there is beach area known as Carita district. From there we can view the Mount of Anak Krakatau in the distance during the clear day. If the weather and condition allowed, there are some excursion to this tiny volcanic island. Near to this area is Ujung Kulon National Park where we can find some exotic plants, the endangered species of one-horn Javanese rhino and the Baduy community with its unique culture.

Any other helpful descriptions and comments:
Please do attention with Visa arrangements and actively communication about this matter with HR and Administration Division of IIEE, because Visa on Arrival only given for 30 days.
