Big Bash!

October 13th

Dean Godfrey Mungal invites you to join fellow alumni and faculty October 13 at the Big Bash! celebrating engineering at Santa Clara University. Come and enjoy delicious hors d’oeuvres and drinks, live music, and all the festivities as we launch our second century of engineering excellence at SCU during Grand Reunion Weekend. You don’t have to be marking your reunion year to attend; just come!

MORE EVENTS FOR ENGINEERS DURING GRAND REUNION

SOLAR DECATHLON OPEN HOUSE

Tour the award-winning 2009 Solar Decathlon Refract House and meet the 2013 team, Saturday, October 13, 1-4 p.m. Our newest team of energy decathletes are off and running. Catch their enthusiasm as you learn of their plans for next year’s competition to be held right here in California.

ENGINEERING SECRETS REVEALED!

Have you ever seen a satellite skeleton? How about an electrosurgical device, carbon nanotube, or a 1920s dance card resembling a slide rule? Treasures such as these from SCU’s first century of engineering are on display daily through December 15 in the Third Floor Gallery, Santa Clara University.
NOMINATE A DISTINGUISHED ENGINEER

It’s time to submit nominations for the highest honor bestowed by the School of Engineering, the Distinguished Engineering Alumnus Award. This award recognizes alumni whose accomplishments in their professions, communities, and/or University service have set them apart. Maybe that's your college roommate...maybe that's YOU! (Self-nominations are gladly accepted.) Submit your nomination by October 15.
