**June 2011: Happy summer!** While this is the last Engineering Alumni Update for the academic year (we'll be back in touch in October), be assured we will be hard at work in the coming months preparing for the School of Engineering's Centennial Celebration. There will be lots of opportunities for you to reconnect with us during the 2011-12 school year, and we look forward to a great year. Be sure to mark your calendar now for our Biggest Bash Ever! October 8, 6 p.m. In the meantime, we wish you a healthy, restful, delightful summer!

**Senior Design Conference Update:** Thank you to the 100 alumni judges who critiqued our student presentations and contributed to a wonderful day for the School of Engineering. Whether you wish to judge the Conference or just come and observe, we hope you will take part next year!

**Engineering News is available online:** Our spring newsletter is now available online. Read about our students' exciting work designing a test fixture for a prosthetic heart valve, researching optical wireless communication, helping Haiti's rebuilding efforts, detecting pathogens in the tiniest sample of water, innovating an affordable method for traffic control, studying the environment with the assistance of a fleet of robotic kayaks, and more. Cool stuff; read it all here.

**Congratulations to Vijay Janapa Reddy '03 (computer engineering),** who will be joining UT Austin as an assistant professor this fall. Vijay received his Ph.D. from Harvard in 2010 and, after seven academic interviews, received six tenure-track offers: Virginia Tech, Northeastern, Brown, Duke, Univ. of Minnesota, and UT Austin.

**Michael Wang, MSEE '93, MBA '97 and Engineering Alumni Board member,** will attend the 15th IEEE Symposium on Consumer Electronics (ISCE 2011) in Singapore June 14-17, where he will present a paper titled, "vEE Tool with Serial Flash Devices in Consumer Electronics Applications." Way to go, Michael!

**There's a new networking group for Bronco professionals in the construction industry.** SCU BroncoBuilders Association (SCUBBA) met last week to organize and gain focus for the group. If you're interested in joining, sign up through SCU's InCircle.

**Share your memories...** If you have a fun story to tell or a photo to share for our upcoming Centennial celebration, we would love to see it. Email Heidi Williams.

**Mark your calendar now for the Biggest Bash Ever! October 8, 2011!** You won't want to miss the biggest bash ever as we kick off our year-long Centennial celebration during Grand Reunion weekend! Champagne, hors d'oeuvres, and once-in-a-century surprises await as we party at the 2009 Solar Decathlon house here on campus! Not just for those observing their reunion, this event is for all of us to celebrate each other and the School of Engineering. Watch for an invitation coming later this summer.
