Character-Based Literacy Program

Book Selection Template

Complete this planning template using the CBL lesson plans list available at https://www.scu.edu/character/lesson-plans/by-subscription/character-based-literacy/. Aim to identify a reading list that covers at least four character development themes. Use the recommended grade level and Lexile for selecting books that best match students' readiness and performance goals. For differentiated instruction, consider adding an option with a different readability level or topic.
