

**School of Engineering Internal Policy
SOEFIN008**

Policy for School of Engineering Indirect Cost Distribution

1. **Background:** The School of Engineering (SoE) receives 70 percent of the IDC (does this stand for Indirect cost?) from external grants, and the university retains the remaining 30 percent. This policy is to address how the SoE allocation is distributed within the School.
2. **Allocation:** The PI of a grant will receive 25 percent of the Schools allocation or 25 percent of the 70 percent overall IDC funds. The remainder will go to the Dean's Office.
3. **Implementation:** Each PI will have an account established for these funds.
4. **Intended Use:** SoE's IDC funds will be used to support the research enterprise for the School of Engineering.

Approved by:

A handwritten signature in blue ink that reads "Elaine P. Scott". The signature is written in a cursive style.

Elaine P. Scott, Dean, School of Engineering
